

# PF-760S

## Automatic cards matching machine

### 全自动卡牌联动线

技术参数 Technical Data	
型号Model	PF-760S
最大纸张尺寸 Max. paper size	760×600 mm
最小纸张尺寸 Min. paper size	450×550 mm
最大卡片尺寸 Max. card size	63×88 mm
最小卡片尺寸 Min. card size	57×87 mm
纸张厚度 Paper thickness	270-350 g
最佳机器速度 Best machine speed	2000 decks/h
机器功率 Machine power	11kw
机器重量 Weight	6500kg

我公司研发的全自动卡牌分理机主要用于各类卡片纸、扑克牌纸的分切、叠和、模切，不但效率高，而且分切的精度也高，可对不同规格的卡片，扑克牌进行分切，并保证前后印刷次序不变，按设计的次序进行叠合，是卡片和扑克牌专业的制造的理想设备。该机内部电器原件采用法国进口施耐德产品，全过程实现自动化：自动输机、自动纵切分切、自动叠牌、自动理牌、自动点数检测、自动套盒、自动塑封包装、设备集光、电气一体化，操作安全，性能稳定。

The automatic cards matching machine developed by our company is mainly used for cutting, stacking and die cutting of all kinds of card paper and playing card paper. It is not only efficient, but also has high precision. It can cut cards and playing cards of different specifications, and ensure that the printing sequence remains unchanged. It is an ideal equipment for professional card and card manufacturing. The internal electrical components of the machine are Schneider products imported from France, and the whole process is automatic: automatic conveyor, automatic vertical and horizontal slitting, automatic folding, automatic card sorting, automatic counting detection, automatic box setting, automatic plastic packaging, equipment integration of light, electricity and gas, safe operation and stable performance.

### 全自动卡牌联动线

技术参数 Technical Data	
型号Model	PF-1040S
最大纸张尺寸 Max. paper size	1040×720 mm
最小纸张尺寸 Min. paper size	720×560 mm
最大卡片尺寸 Max. card size	63×88 mm
最小卡片尺寸 Min. card size	57×87 mm
纸张厚度 Paper thickness	270-350 g
最佳机器速度 Best machine speed	4000 decks/h
机器功率 Machine power	13.6kw
机器重量 Weight	7000kg

我公司研发的全自动卡牌分理机主要用于各类卡牌纸，扑克牌纸的分切、叠和、模切、点数、套盒、包装。不但效率高，而且分切精度也高，可对不同规格的卡片、扑克牌进行分切，并保证前后印刷次序不变。按设计的次序进行叠合，是卡片和扑克牌专业制造厂家的理想设备。该机内部电器原件采用法国进口施耐德产品，实现自动化全程流水线体现为：自动输纸、自动纵切、自动叠牌、自动理牌、自动点数检测、自动套盒、自动塑封包装。设备集光、电气一体化，操作安全，性能稳定！

Our company's self-developed automatic card sorting machine is mainly used for all kinds of cards paper. It has high efficiency and high cutting precision. It can cut cards and playing cards of different specifications, and ensure the same printing order before and after printing and stacking according to the design order. It is an ideal equipment for professional manufacturing of cards and playing cards. This machine adopts Schneider products imported from France to realize automatic whole process assembly line, which includes: automatic paper feeding, automatic vertical and horizontal slitting, automatic card stacking, automatic card sorting, automatic number detection, automatic box setting and automatic plastic packaging. Equipment set light, electricity, gas integration, safe operation, stable performance!
